

# The Balanced Supply of Housing

## About Us

The **Balanced Supply of Housing** node conducts rigorous community-based research and data analysis to foster a just and equitable housing system, with a focus on Canada's urban centres, including Toronto, Vancouver, and Montréal.

## Vision

Our goal is to **inform policy and systemic changes** to address socio-economic and racial inequities so that **the right to housing is realized**.

## Researchers

BSH works with over **30** academic and community researchers from across Canada.

## Community Partners

We conduct research in partnership with organizations such as non-profit housing providers, community land trusts, tenant advocacy organizations, and more.

## Land Acknowledgment

Housed at the University of British Columbia's Allard School of Law, we are incredibly grateful to work and live in the traditional and unceded territories of the Coast Salish Peoples. We are committed to learning to work in solidarity as accomplices in shifting the colonial default.

## Our Research

BSH funds over **40 projects** that focus on three core areas of research.

### Housing Financialization

- Evictions
- Non-Market Housing
- Impact of Short-Term Rentals

### Land Use

- Community Land Trusts
- Indigenous Housing
- Zoning Reform

### Sustainable Housing Futures

- 'Missing Middle' Housing
- Accessible Housing
- Co-housing

## Knowledge Mobilization

### The Overhead

Our podcast series is a deep-dive into understanding Canada's housing crisis.

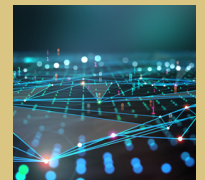

### Research in Progress

This ongoing webinar series provides an inside look into our research projects.

### Housing Policy Database

An online repository of 103 housing policies worldwide that could be applied to the Canadian context.

### Events

We host conferences, workshops, and speakers on key issues in housing affordability.
